

RECOGNITION FOR ACCOMPLISHMENT

The Gallipolis City Board of Education appreciates the diligent effort made by its members, staff, students, and citizen volunteers in achieving the district's goals and objectives. The Board is mindful, also, that frequently there are exceptional achievements and contributions made by persons representing our schools, which favorably reflect on the whole character of our district.

It is the Board's intent to grant official recognition for such outstanding accomplishments on behalf of the school district by individual students, staff members, citizens or Board members.

One form of recognition may be adoption of a Board resolution citing such service or accomplishment; another form may be letters of commendation from the Board. The Board may invite individuals or groups that have made important school-related contributions or achievements to the Board meeting at which they will be commended.

[Adoption date: August 6, 1991]
